

Draft Questionnaire
Youth and Political Violence

Hello! How are you? My name is_____. I am a researcher working for a research group at_____

This survey is part of an investigation of general opinion of youth concerning a variety of social issues. You will probably find that you *agree* with some of the statements, and *disagree* with others, to varying extents. There is no right or wrong answer.

Please note that your answers to these questions will be kept anonymously. We record no names, identifies, or information that can be used by the people seeing the completed survey questionnaires to identify any of the respondents at any time. Please also note that your participation, while is greatly appreciated, is totally voluntary and that you can withdraw at any time during the interview.

This questionnaire consists of several parts. Here, I would like to begin by asking your opinion on some matters concerning family life around the world. I will read you some statements, and I would like you to tell me if you strongly agree, agree, disagree, or strongly disagree. These are:
